PROJECT DESCRIPTION:

Objectives

The main objective is to create the conditions necessary for the formation of high-quality learning process, based on the modernization and quality of sustainable development.

Sub goals:

- to promote the quality of architecture, restoration and construction, supporting the development of standards;
- harmoniously combine natural assets, cultural heritage and contemporary architecture in high-quality spatial development;
- to improve the quality of education in the specialities of Construction, Architecture and Restoration as well as to support the research in these areas;
- to increase public awareness of the responsibility of residential and public environment in promoting architecture and promoting public participation;
- to promote the preservation of tangible and intangible Cultural Heritage assets (material groups – wood, metal, artificial and natural stone, paper);
- to promote Latvian architectural visibility and competitiveness at international level.

Activities

Riga Building college certifies that its international collaboration strategy will participate in and promote the modernization of higher education and internationalization. Work is being done at the college brand awareness and openness to international area. In order to raise the quality of higher education, giving the necessary researchers and graduates, and to strengthen the capacity of Riga Building college, the institution plans to develop new programs: Building Restoration/conservation; Road Construction; Technology of Building Engineering.

Results

Expected results are going to improve:

- competitiveness of graduates in the labour market;
- education methodology and quality;
- quality of preservation and maintenance of Cultural Heritage.
