## Partner Search Form

### PROJECT DESCRIPTION:

#### Objectives

The major aim of the project is obtaining the development and modernization of the university. In addition, promoting education of the land management in Kyrgyzstan

Other project objectives:

- Increasing qualification of the professors and teachers
- Introduction of the new and innovative methods of the education
- Providing motivation for students for self-development

#### Activities

KNAU has graduate, undergraduate and postgraduate programs in Land management, Geodesy, IT, Transportation and Natural Sciences as well as professionals retraining programs. The land management department of KNAU has specialized laboratories "GIS" equipped with GPS/GNSS receivers, automatic system of registration, "Engineering Geodesy", "Photogrammetry and Cartography", modern computers, servers, plotters and printers, photogrammetric and geoinformatic software, high speed Internet, lecture rooms, geodetic polygon and other infrastructure.

#### Results

As a result of the project implementation:

- Reach well qualified professors and teachers
- Increase mobility among not only students, but also among the staff
- Good university infrastructure
