### Interaction:

Participants are encouraged to engage via the chat and Q&A functions. Dedicated discussion moments are included in the programme.

## About the meeting

The HERE Networking meeting is an opportunity for HEREs and NEOs to connect, exchange experiences, and strengthen collaboration across countries.

This year, we will put a special focus on impact, how HERE work translates into change, and communication, exploring how to better share stories, results, and lessons from HERE activities.

The event will feature short presentations, group discussions, polls, and interactive exchanges designed to make the most of the HERE community's experience.
